5. How to view unlocking records?

- Select which lock you want to view unlocking records on

- Select the "records" tab

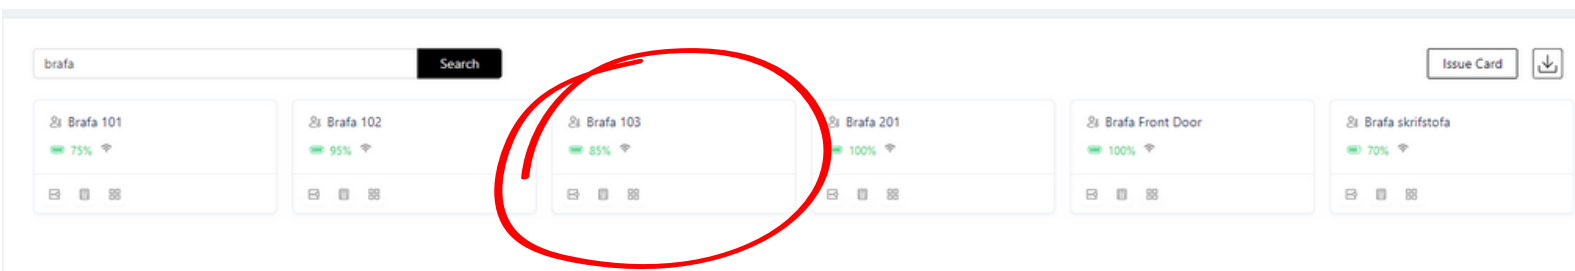

- Here you can review all status updates for your lock such as what user opened the lock, what unlocking method was used (Pin code, remote unlock, fingerprint) and at what time & date the lock was opened

| Operator | Unlock Method | Unlock Time | Status |
|----------|---------------------------|------------------|---------|
| Master | Unlock with Pin code 1*** | 2023-04-05 14:18 | Success |

6. How to activate passage mode?

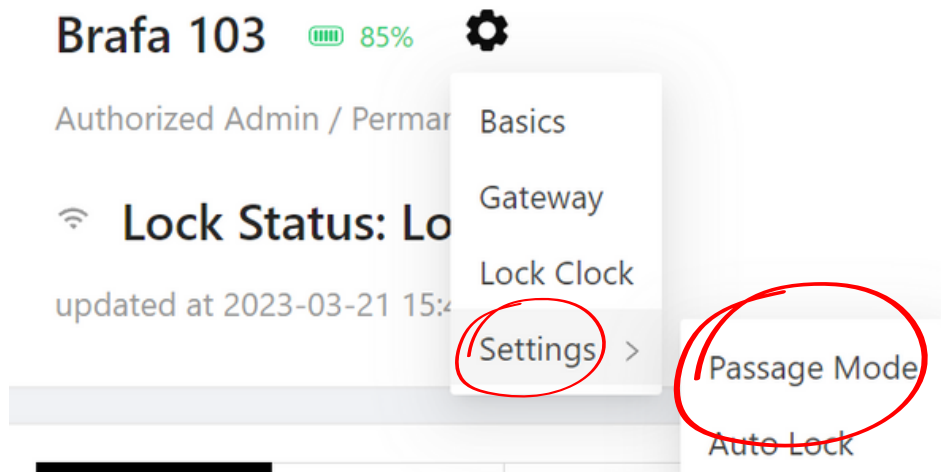

- Passage mode is a feature within the brafa App. On compatible smart locks, passage mode enables users to set up set times and days of the week where the lock will remain unlocked for the duration of that period.
 - This feature is great for businesses open 9-5. They can simply program the smart lock by following these steps to remain unlocked from 9-5 Monday to Friday
 - The lock will always have to be opened manually with a pin or through the app to activate passage mode and will stay opened until the set time and then lock automatically
-
- Select which lock you want to activate passage mode on

- Click the cogwheel in the upper left corner of the screen

- Hover over the "Settings" tab until the side menu appears and select "Passage mode"

- Activate passage mode by pressing the "Passage mode" button

Submit

- Select which days you want passage mode to be active and what time of day, if you want passage mode to be active 24 hours a day press the all hours button

Passage Mode ☒

* On these days ☒ Sun ☒ Mon ☒ Tue ☒ Wed ☒ Thu ☒ Fri ☒ Sat

☒ Start time

7. Frequently asked questions

- Why can't I create a custom passcode?

Make sure your lock has been connected to a gateway and then you can create a custom passcode

- If your lock is connected to a gateway you should see a "wifi" symbol next to the "battery status" symbol

- What is the purpose of autolock?

You can set the time for how long until the lock autolocks itself after it has been opened, the default setting is 5 seconds

- The lock is making a siren sound, what should I do?

If you enter the wrong password or fingerprint more than 5 times in a row, the keyboard will lock for 1 minute. It can still be unlocked with the app or an RFID Card/chip.
